

STNF | PERIMETER MARKING

Exit Path/Final Exit Marking/Panic Bar

TESA HIGH TACK
PEEL AND STICK
ADHESIVE

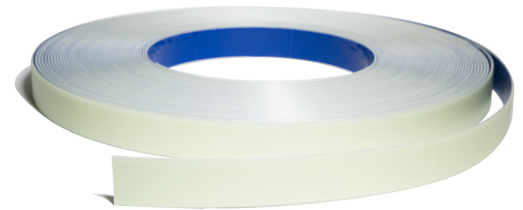

Photo-Glo® is made of the same industrial grade solid polymer used in golf balls with imbedded glow-in-the-dark pigment. This creates a durable material that is approximately 50% brighter than the code requires. Photo-Glo comes with an industry leading 25-year warranty.

Washable and easily sanitized.

- Aggressive high tack peel and stick adhesive backing – no additional adhesive required
- 1" x 100' Photo-Glo® photoluminescent roll
- Activated by natural, fluorescent, incandescent or LED light
- Cuts with scissors
- Mount on the floor/wall/door outline/panic bar

For **exit path/perimeter/final exit** markings used in:

- High Rise Buildings
- Hospitals
- Assisted Living
- Stadiums
- Schools
- Commercial Buildings

Code Compliant in all 50 states and Canada:

Exceeds ASTM E2072 glow requirements
Code compliant: ICC/IBC/IFC
